John Kieling
Program Manager
Permits Program Manager

Dear Mr. Kieling:

Los Alamos National Laboratory (LANL) is informing the New Mexico Environment Department-Hazardous Waste Bureau (NMED-HWB) of the need to expedite the demolition of structure TA-15-502. This structure may need to be demolished prior to the 2nd Quarter Demolition Notification (March 31, 2012) due to a failing compressor. In order to remove the compressor from the shed, this structure will need to be demolished.

In the attached document, you will find the reporting requirements as outlined in Section 1.17 of the LANL Hazardous Waste Permit. The Permittees will also submit a letter to NMED-HWB documenting this expedited notification.

If you should have questions or concerns, please contact Mark Haagenstad at mph@lanl.gov or 505-665-2014.

Expedited Demolition Notification for TA-15-0502

Technical Area (TA) and Building Number	Type of Structure	Current and Historic Uses	Approximate Dates of Operation	Solid Waste Management Units (SWMU)/ Areas of Concern (AOC) w/in 50 ft. of Footprint	Category	Date /Quarter Demolition Expected to Begin	Buildings or Fixed Structures Identified in Previous Fiscal Year that were not Demolished
