Ms. Barbara Driscoll
RCRA Permits Branch
US Environmental Protection Agency
Region 6
1445 Ross Avenue
Suite 1200
Dallas, TX 75202-2733

Dear Ms. Driscoll:

We are planning to proceed with shallow sampling activities at Technical Area 15 in support of Operable Unit 1086 baseline characterization. The activities are tentatively scheduled to begin the week of November 22, 1993, and would proceed for 2-3 days, weather permitting. This sampling activity is referenced in the Resource Conservation and Recovery Act Facility Investigation work plan for OU 1086 submitted to you on July 2, 1993. The sampling will commence pending approval to proceed at risk from the Department of Energy/Los Alamos Area Office.

If you have any questions or concerns, please call me at the number above.

Sincerely,

Tracy Glatzmaier
Programmatic Project Leader
