RE: Request For Extension Regarding WQCC 1203 Corrective Action Work At The TA-15 Connector Road Spill Site

Dear Mr. Rae:

The New Mexico Environment Department-Surface Water Quality Bureau (NMED-SWQB) has evaluated your request for a time extension to complete the stabilization and clean up efforts at the TA-15 Connector Road site spill. Our letter of August 7, 1997, requested completion of cleanup at this site within 30 days (which would be September 11, 1997), and your extension request asks that this time be extended to October 11, 1997. The request is reasonable and is therefore granted.

According to the extension request letter, NMED-SWQB will be notified if the cleanup efforts are delayed beyond the proposed extension date of October 1, 1997, as a result of weather. Also, NMED-SWQB expects to receive verification of cleanup of the site 15 days after the cleanup is complete.
