Dear Mr. Garcia:

The Environmental Protection Agency (EPA) has reviewed LANL's VCA Completion Report for SWMU 15-009(j) dated September 30, 1998, and has found the Report to be approvable. EPA agrees with LANL's recommendation of no further action under criterion 3 "No release to the environment has occurred or is likely to occur in the future from the SWMU".

Should you have any questions, please feel free to contact Mr. Rich Mayer at (214) 665-7442.

Sincerely,
