FIRP August  
submittal for Sigm..

Mr. Kieling,

The purpose of this email is to submit a notification of buildings or fixed structures that are scheduled to be demolished prior to fiscal year end 2008 (August 1, 2008 through September 30, 2008). This information just became available due to an increase in funding for D&D projects and was not known prior to submittal of the June 2008 quarterly report.

This situation was not foreseen under the provisions of the Settlement but LANL feels that it is required under the spirit and intention of the Settlement Agreement and Stipulated Final Order

(Agreement) signed April 10, 2007 between the New Mexico Environment Department (NMED) the United States Department of Energy (DOE) and Los Alamos National Security, LLC (LANS). As was discussed with Jack Ellvinger via a phone conversation on August 18, 2008 LANL is providing the attached table which describes the buildings or fixed structures scheduled for demolition, and for each: the historic uses, location of any SWMUs within 50 ft., and the approximate date or month in which the demolition is scheduled to begin. Although the spreadsheet designates each building as a trailer or transportable, which are not required to be reported under the Agreement, LANL has managed these buildings as fixed structures. Therefore, LANL determined it was important that NMED receive this notification in a timely manner.

If you have questions, please do not hesitate to contact me.

Sincerely,

Catherine Juarez, CHMM
