Dear Mr. Bearzi:

Beginning September 28, 2009, Los Alamos National Laboratory (the Laboratory) will begin investigation and remediation activities at Consolidated Unit 16-007(a)-99 and 16-008(a)-99. The scope of the sampling is documented in the Supplemental Investigation Work Plan for Consolidated Units 16-007(a)-99 and 16-008(a)-99, dated November 2008, and the subsequent New Mexico Environment Department (NMED) notice of approval with modifications for this plan, dated December 31, 2008.

Sampling and remediation activities are expected to last 4 months, from September to December 2009. The Laboratory will notify NMED Hazardous Waste Bureau staff of any changes to the schedule. The sampling results will be presented in the supplemental investigation report due to NMED on January 7, 2010.

If you have any questions, please contact John McCann at (505) 665-1091 (jmccann@lanl.gov).
