James Bearzi, Bureau Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

**Subject: 15-Day Sampling Notification for the Corrective Measures Implementation Plan
for Consolidated Unit 16-021(c)-99, Revision 1**

Dear Mr. Bearzi:

Beginning September 25, 2009, Los Alamos National Laboratory (the Laboratory) will begin investigation and remediation activities at Consolidated Unit (CU) 16-021(c)-99. Sampling activities are expected to begin October 2, 2009. The scope of the sampling is documented in the Corrective Measures Implementation (CMI) Plan for CU 16-021(c)-99, Revision 1, dated July 2007, and the subsequent New Mexico Environment Department (NMED) notice of approval for this plan, dated August 17, 2007.

Sampling and remediation activities are expected to last 4 months, from September to December 2009. The Laboratory will notify NMED Hazardous Waste Bureau staff of any changes to the schedule. The sampling results will be presented in a summary report for this CMI plan due to NMED on March 1, 2010.

If you have any questions, please contact John McCann at (505) 665-1091 (jmccann@lanl.gov).

Sincerely,

Dave McInroy, Program Director
Environmental Programs – Corrective Actions Program
Los Alamos National Laboratory
