Subject: 15-Day Sampling Notification for S-Site Aggregate Area Investigation

Dear Mr. Bearzi:

Beginning the week of October 19, 2009, Los Alamos National Laboratory (the Laboratory) is scheduled to begin execution of investigation activities in the S-Site Aggregate Area. The scope of the sampling during this field campaign is documented in the Investigation Work Plan for the S-Site Aggregate Area, Revision 1, dated December 2007 (EP2007-0796); and the subsequent New Mexico Environment Department (NMED) approval letter for this plan, dated January 23, 2008 (HWB-LANL-07-029).

Sampling and remediation activities are expected to occur over the next 4 months. The Laboratory will notify NMED Hazardous Waste Bureau staff of any changes to the schedule. The sampling results will be presented in the investigation report for this aggregate area, due to NMED on August 31, 2010.

If you have any questions, please contact John McCann at (505) 665-1091 (jmccann@lanl.gov).

Sincerely,

Dave McInroy, Program Director
