Mr. Art Vollmer
New Mexico Environment Department
Compliance & Technical Assistance Program
Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

Dear Mr. Vollmer:

SUBJECT: REQUEST FOR 30-DAY EXTENSION FOR INVESTIGATION-DERIVED WASTES FROM CONSOLIDATED UNIT 16-003(d)-99

Los Alamos National Laboratory (LANL) requests a 30-day extension for drill cuttings and contact waste generated from the investigation of consolidated unit 16-003(d)-99. The waste is currently stored in a less than 90-day hazardous waste accumulation area (Site 5267) at Technical Area 16. This extension will allow time for the New Mexico Environment Department to evaluate a request for a "contained in" approval for the wastes. The request for the "contained in" approval is attached.

< 90 Site ID #	Container Type	Waste Type	Generation Date	90 Days from Generation
5267	55-gallon drums (Item ID#s 10112957, 10112960, 10112961, 10112968, 10112986, 10112988, 10112990)	Drill Cuttings and Contact Waste	3/9/2010	6/7/2010

Please contact Ann Sherrard at (505) 665-8968 of the Water Quality & RCRA Group (ENV-RCRA) if you have questions.

Sincerely,

Anthony R. Grieggs
Group Leader
Water Quality & RCRA Group (ENV-RCRA)
