John Kieling, Bureau Chief  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, NM 87505-6303

**Subject: Request for Extension to Submit the Response to the Notice of Disapproval and Phase II Investigation Work Plan for the S-Site Aggregate Area, Revision 1**

Dear Mr. Kieling:

This letter requests an extension from the September 15, 2012, date to submit the response to the notice of disapproval (NOD) and the Phase II Investigation Work Plan for S-Site Aggregate Area, Revision 1, to a new date of September 15, 2014.

The U.S. Department of Energy (DOE) and Los Alamos National Security (LANS), LLC, request this extension in order to continue focusing efforts on accelerating the shipment of aboveground transuranic (TRU) waste from Los Alamos National Laboratory's Technical Area 54, Area G, to the Waste Isolation Pilot Plant. This focus will result in a material reduction of environmental risk. This acceleration of TRU waste shipments will also allow DOE/LANS to support the environmental priorities established by the New Mexico Environment Department and the State of New Mexico.

This new date to submit the response to the NOD and the Phase II Investigation Work Plan for the S-Site Aggregate Area, Revision 1, was developed to support the mutual goal of environmental risk reduction. DOE/LANS request this extension under Section III.J.2 of the Compliance Order on Consent.

If you have any questions, please contact Victoria George at (505) 667-7883 ([torig@lanl.gov](mailto:torig@lanl.gov)) or David Rhodes at (505) 665-5325 ([david.rhodes@nnsa.doe.gov](mailto:david.rhodes@nnsa.doe.gov)).

Sincerely,

Sincerely,

  
Michael J. Graham, Associate Director  
Environmental Programs  
Los Alamos National Laboratory

  
Peter Maggiore, Assistant Manager  
Environmental Projects Office  
Los Alamos Site Office
