MEMORANDUM

SUBJECT: Los Alamos National Labs 5-Year Plan

FROM: Randall E. Brown  
Chief  
RCRA Enforcement Branch (6H-C)

TO: Bill Honker  
Chief  
RCRA Permit Branch (6H-P)

The subject plan has been reviewed by the Enforcement staff. The following comments were noted:

1. Page 3, Part 1.21. The plan refers to Appendix A Five-Year Plan (FYP) Activity Data Sheets (ADS) ... and Site Specific Plan of Appendix B. They should be Appendix 1 and 2, as indicated in the two attachments.
2. Page 4. The Appendix B schedules specified an estimated six years for completion of RFI/CMS before initiation of corrective measures. As the RFI progresses, if a source of release is identified, corrective measures and implementation should commence in a shorter time frame.
3. It is also noted that the increased levels of funding specified in Appendix B over Appendix A may fall short of actual funding need. If an immediate release is found at the time of the inspection, Los Alamos National Labs should have funding available for corrective action.
4. The plan did not address the ground water monitoring at the Area P landfill, the surface impoundment at Area 16, or the solvent disposal area at Area 16, Building 340, as stated in the NMEID Compliance Order dated September 6, 1988.

If there are any questions about these comments, please contact Laurie Pham at 5-2192.

bcc: Jim Highland (6E-FF)
