ER PROJECT TELECONFERENCE NOTES

: 3/17/98

TO: John Kieling **FROM:** Don Hickmott **DATE:** March 17, 1998
ORG.: NMED/HRMB **ORG.:** EES-1 **TIME:** 8:00 a.m.

OTHER PARTIES: None

DISCUSSION:

Don called to follow-up on Dave McInroy's call of the previous week in which LANL had informed HRMB that water had been found in the hydrogeologic borehole near the 90s Line Pond at TA-16.

Don noted that the borehole contained a small amount of water at a depth of approximately 140 ft. He suggested that the drilling team would advance the borehole another 10 to 15 ft (hoping to approach the Unit 3/4 contact) then complete a screened well. John Kieling agreed that this was a reasonable approach.

Don also inquired whether John and other HRMB participants would be attending the ITRD meeting later in the week.

ACTION ITEMS:

None.

DH:jgr

Distribution:

- B. Koch, LAAO, MS A316
- D. McInroy, EM/ER, MS M992
- J. Mose, LAAO, MS A316
- V. George, EM/ER, MS M992
