Santa Fe, NM 87502

SUBJECT: MODIFICATION TO SAMPLING NOTIFICATION

Dear Mr. Kieling:

The Los Alamos National Laboratory (LANL) Environmental Restoration (ER) Project is modifying the sampling notification for Technical Area (TA)-16 subsurface soil sampling submitted to your office; this previous notification is referenced by E/ER:99-291. Because of unforeseeable circumstances, the sampling activities outlined in the previous notification were not conducted. The sampling activities are now scheduled to occur between November 9 and December 14, 1999 and include analyses for uranium and the extended suite of high explosives. As well drilling activities in Martin Spring Canyon proceed, the ER Project will verbally notify your office of more precise sampling dates.

Samples will be collected as shown in the table below.

Plan/ Document	Location	Number of Samples	Sample Type	Analyses
CMS Plan for PRS 16-021(c) LA-UR-98-3918 EM/ER: 98-397	3 Alluvial Wells in Martin Spring Canyon	6 samples (2 samples per borehole)	Subsurface soil/tuff	<ul style="list-style-type: none"> High Explosives (extended suite) TAL metals including Boron Semivolatile organics Uranium (total)

If you have any questions or concerns please feel free to give me a call at (505) 667-0819.

Sincerely,

David McInroy
Environmental Restoration Project
