AFFIDAVIT OF STEVEN P. GIRRENS

1. I am the Group Leader for the Weapons Response Group, Engineering Science and Applications Division (ESA-WR) at Los Alamos National Laboratory.

2. The information in this affidavit reflects my personal knowledge of operations at Technical Area 16, Building 88 (TA-16-88) as well as information provided to me by the employees who undertake waste management operations at the units specified.

3. TA-16-88 contains a mixed waste management storage unit consisting of a defined portion of the interior of the building. The unit has operated under Resource Conservation and Recovery Act interim status from July 1990 until the present time.

4. An operating record review undertaken by my staff in May 2002 established that the only storage that occurred in the unit between July 1990 and the present involved a drum of non-hazardous waste in April 1998.

5. No hazardous waste management activity of any kind occurred in the waste management storage area at TA-16-88.

FURTHER AFFIANT SAYETH NAUGHT.
