**Discussion** This communication record (including all referenced information previously provided to NMED-HWB) documents a telephone conversation on June 26, 2003, between Vickie Maranville, NMED-HWB and Bill Criswell, RRES-RS regarding the planned submittal of the MDA P Phase I Implementation Report to NMED on June 27, 2003. During the telephone conversation, the following information was discussed:

The MDA P Phase I Implementation Report is a re-submittal of Annex II of the Material Disposal Area P Closure Certification Report, Material Disposal Area P, 387 Flash Pad, and SWMU 16-016(c)-99 dated January 2003 and referenced by LA-UR-02-7819 (ER2002-0773). As requested in the NMED letter of April 30, 2003, the Annex II will be reformatted and resubmitted under separate cover.

During the LANL review of the document, it was discovered that a formatting error affects the complete data tables (supplied in CD format) and Appendices D and E, summaries of the analytical requests and results, respectively. The affected information includes only the waste characterization data in the MDA P Phase I Implementation Report. The formatting errors do not affect any decisions that have been made concerning waste disposition, as those decisions utilized original laboratory data reports. The formatting errors only affect the data summaries created for the report. No decisions regarding the site are made or intended with this data.

Vickie agreed that the report should be submitted on the established date, and the waste characterization data tables (Appendices D and E) and the data disc would be submitted under separate cover within 30 days.

**Action Items:**  
Deliver communication record for Vickie Maranville to initial and distribute the record. Correct and deliver the data disc and Appendix D within 30 days of the June 27, 2003 submittal.
