Subject: Reference Set for OU 1082

Dave/Don,

Now that we've received the CMS report for 16-021(c)-99, it is crucial that the OU 1082 reference set be complete. The updated and complete reference set needs to be available during the CMS review process and for the public participation process. Section N of LANL's HSWA Module states that the CMS Report must contain all of the information needed to support our decision in the remedy selection process. This cannot be done without access to the documents referenced in the Phase III RFI Report and the CMS Report. I will not send a fee letter for the CMS Report review (and start my review) until we receive the update. Please let me know ASAP when this can be provided.

Thanks,
Darlene
