**SUBJECT: REQUEST FOR APPROVAL OF INVESTIGATION REPORT FOR
CONSOLIDATED UNIT 16-021(C)-99 (260 OUTFALL) GROUNDWATER
OUTLINE**

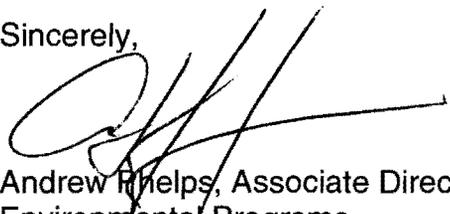

Dear Mr. Bearzi:

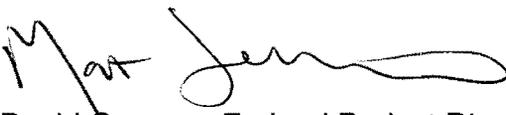

Enclosed please find the proposed outline for the "Investigation Report for Consolidated Unit 16-021(c)-99 (260 Outfall) Groundwater." This document is a deliverable required by the Compliance Order on Consent and is due on August 31, 2006. The outline for this document has been modified to facilitate the presentation of the large volume of data and information contained within this report and to focus on issues associated with groundwater. Los Alamos National Laboratory and the Department of Energy request that you review the attached outline and provide comments and/or approval so we may produce this document to your satisfaction within the schedule presented in the Compliance Order on Consent. This outline was discussed with Darlene Goering of your staff during a meeting on February 27, 2006; the outline has changed slightly since that time.

If you have any questions, please contact Donald Hickmott at 505-667-8753 (dhickmott@lanl.gov) or Woody Woodworth at 505-665-5820 (lwoodworth@doeal.gov).

Sincerely,

Andrew Phelps, Associate Director
