EPA, Region 6, has reviewed the RCRA Facility Investigation Report (RFI) for Potential Release Sites in TA-18 and TA-27 submitted by LANL (Field Unit 2) in January 1995. The EPA has found the report to be deficient and attached you will find the list of deficiencies in which LANL has 60 days to respond. Please have Field Unit 2 prepare a Notice of Deficiency Response in concurrence with Field Unit 2 Field Project Coordinator, Everett Trollinger.
