REPLY TO ATTN OF: LAAMEP:9ET-003

SUBJECT: Corrective Action Report for TA-18 Septic Tank Leach Field, PRS 18-003(d), dated June 25, 1996

TO: Jorg Jansen, Program Manager, EM/ER, LANL, MS-M992

DOE/LAAO received the attached letter from the Hazardous and Radioactive Materials Bureau (HRMB) of the New Mexico Environment Department, on October 30, 1996. As the letter states, LANL did not submit the Corrective Action Report for this Potential Release Site (PRS) to the HRMB. PRS 18-003(d), is a Solid Waste Management Unit (SWMU) listed on LANL's Hazardous and Solid Waste Amendments permit. Field Unit two prepared the Corrective Action Plan working with the Water Quality and Hydrology Group, ESH-18. LAAO requests that Field Unit two compile the Corrective Action Report, original transmittal letter, and most recent meeting action items discussed between HRMB, Ground Water Quality Bureau (GWQB), UC-LANL, and DOE/LAAO. LANL shall prepare the requested documentation and submit to the HRMB by November 12, 1996.

Should you have any questions, please contact Everett Trollinger of my staff at (505) 667-5801.
