**RE: APPROVAL  
EXTENSION REQUEST FOR  
SUBMITTAL OF THE INVESTIGATION REPORT  
LOWER PAJARITO CANYON AGGREGATE AREA  
LOS ALAMOS NATIONAL LABORATORY  
EPA ID#NM0890010515  
HWB-LANL-10-052**

Dear Messrs. Rael and Graham:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Request for Extension to Submit the Investigation Report for Lower Pajarito Canyon Aggregate Area* dated November 17, 2011 and referenced by EP2011-0396.

The Permittees request the extension to submit the investigation report due to the need to focus efforts on shipment of aboveground transuranic (TRU) waste from Technical Area (TA) 54 to the Waste Isolation Pilot Plant, located in Eddy County, New Mexico. The need to remove TRU waste stored at TA-54 is aligned with Governor Martinez' policy to prioritize groundwater and surface water protection and accelerate the removal of TRU waste stored at Los Alamos National Laboratory.

34935

The Permittees stated cause for the requested time extension is acceptable. The submittal date for the investigation report is hereby postponed from July 31, 2012 to **July 31, 2014**, as requested. NMED may re-evaluate the need for this extension based on the Permittees' progress in accelerating removal of TRU waste from TA-54 or if new information becomes available that indicates off-site migration of contamination. The Permittees must notify NMED, within 30 days of receipt of such information, should funds become available in the future that allow for the IWP to be prepared and submitted for the Lower Pajarito Canyon Aggregate Area prior to July 31, 2014.

Please contact Neelam Dhawan at (505) 476-6042 should you have any questions.

Sincerely,

John E. Kieling  
Acting Chief  
Hazardous Waste Bureau
