OFFICE MEMORANDUM

TO : Distribution

DATE: May 23, 1967

FROM : Engineering Department

SUBJECT: MATERIALS DISPOSAL AREAS-DRAWING ENG-R 102, (REVISION 14)

SYMBOL : ENG-3

For your information and retention we are transmitting herewith Copy _____ of the subject map, which has been revised to include four additional disposal areas; which are identified as areas "T", "U", "V" and "W".

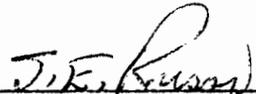

Area "T" is the leaching pit area located north of Building DP-35, TA-21.

Area "U" is the leaching pit area around Acid Sump DP-168; approximately 100 feet northwest of Building DP-153, TA-21.

Area "V" is the abandoned laundry waste seepage pit area located approximately 200 feet west of Building DP-14, TA-21.

Area "W" is the Tank Farm Area located in the southeast portion of TA-35; structures within the Tank Farm Area are: TSL-8, Pump Pit; TSL-9, Pipe Trench; TSL-10, Concrete Tank Building; TSL-36, Acid Tank; and TSL-52, Control Panel.

Please advise this office if you are aware of any other areas where hazardous materials have been disposed of, so that we may include them on future revisions of the map; if additional copies of this drawing are required, please contact this office. The drawing in its present form is unclassified.
