1851*

Charles Daggett called December 16 to confirm the fact that the regular contractor would construct a fence in the Area T area to conform with security regulations. This will be the regular fence with outriggers and the work should be done in two months or less.

I conferred with Keith Schiager on December 17 and we agreed that the delay of two months would not justify the cost of 300 feet of temporary fencing. Accordingly, I called Daggett again and told him to delay the fencing.
