To M. A. Rogers, MS-490

Date 4/24/79

In checking through some of my notes I found an error in information you received on memo H-7B-79-9 "Radionuclide Content on Area T Shafts."

The amount of U<sup>233</sup> into shafts 52 and 58 should total 731 grams not 713 grams. I am very sorry for the error.
