memorandum

TO: Mike Rector, Pan Am Salvage, MS A199
DATE: June 3, 1988

THRU: Thomas Gunderson, Health, Safety, and Environment Division
MAIL STOP TELEPHONE: K490/7-0819

FROM: Dave McInroy, HSE-8 *DM*
SYMBOL: HSE-8:88:328

SUBJECT: CONDITION OF SCRAP STEEL (UNDERGROUND TANKS)

Fifteen Underground Storage Tanks (USTs) have been removed from the old tank farm on DP road. They have been cleaned of all residual fuels and sludge to the best of our capabilities. HSE-1 has monitored all tanks for radiation activity and found none present. From these two aspects I believe that the tanks can be salvaged safely.
