"OU SCHEDULES  
FY 92 UPDATE"*

THRU: *LA Center for* Allen Tiedman, Associate Director for Operations

Dear Mr. Bellows:

Enclosed is an updated schedule for implementation of the Environmental Restoration (ER) Program at the Los Alamos National Laboratory (the Laboratory) as approved in the Fiscal Year (FY) 1992 Baseline. This updated schedule is to be submitted as required by the Hazardous and Solid Waste Amendments Module of the Resource Conservation and Recovery Act (RCRA) permit issued by the Environmental Protection Agency (EPA), Region VI, to the Department of Energy (DOE), and the University of California for operation of the Laboratory to the EPA. The schedule presents activities that are projected for 24 operable units that will address the solid waste management units (SWMUs) identified in the permit and in the November 1990 SWMU Report. The RCRA Facility Investigation (RFI) Work Plan for TA-21 Operable Unit was submitted to the EPA on May 23, 1991. Additionally, eight other RFI Work Plans for Operable Units were submitted on May 22, 1992. The updated schedules are based upon the FY92 DOE-approved ER Baseline. The approved schedules and cost figures will be presented in the updated Installation Work Plan for the Laboratory's ER Program due to you November, 1992. Modification to these schedules is controlled through change control procedures.

Please submit the attached to B.C. Winn, Director of the Hazardous Waste Management Division, U.S. Environmental Protection Agency, Region IV, 1445 Ross Avenue, Dallas, Texas 75202-2733. A copy should also be sent to Kathleen Sisneros, New Mexico Environment Department, Hazardous and Radioactive Waste Bureau, Harold Runnels Building, 1190 St. Francis, Santa Fe, New Mexico, 87503.

If you or your staff have any questions, please contact Robert Vocke of my staff at 505-667-0808.

*TR*

Enclosed for your consideration are two draft transmittal letters: one to Mr. B.C. Winn, EPA and the other to Ms. Kathleen Sisneros, NMED.

Sincerely,

Tom Gunderson  
Division Leader  
Environmental Management

Mr. B C. Winn  
Director of Hazardous Waste Management Division  
US Environmental Protection Agency, Region VI  
1445 Ross Avenue  
Dallas, TX 75202-2733

Dear Mr. Winn:

Enclosed is an updated schedule for implementation of the Environmental Restoration (ER) Program at the Los Alamos National Laboratory (the Laboratory) as approved in the Fiscal Year (FY) 1992 Baseline. This updated schedule is submitted as required by the Hazardous and Solid Waste Amendments Module of the Resource Conservation and Recovery Act (RCRA) permit issued by the Environmental Protection Agency (EPA), Region VI, to the Department of Energy (DOE), and the University of California for operation of the Laboratory. The schedule presents activities that are projected for 24 operable units that will address the solid waste management units (SWMUs) identified in the permit and in the November 1990 SWMU Report submittal to you. The RCRA Facility Investigation (RFI) Work Plan for TA-21 Operable Unit was submitted to the EPA on May 23, 1991. Additionally, eight other RFI Work Plans for Operable Units were submitted on May 22, 1992. The updated schedules are based upon the FY92 DOE-approved ER Baseline. The approved schedules and cost figures will be presented in the updated Installation Work Plan for the Laboratory's ER Program due November, 1992. Modification to these schedules is controlled through change control procedures.

A copy of the attached is also being submitted to the New Mexico Environment Division.

Sincerely,

Jerry Bellows  
Los Alamos Area Office Manager

Kathleen Sisneros  
New Mexico Environment Department  
Hazardous and Radioactive Waste Bureau  
1190 St. Francis Drive  
Santa Fe, New Mexico 87503

Dear Ms. Sisneros:

Enclosed is an updated schedule for implementation of the Environmental Restoration (ER) Program at the Los Alamos National Laboratory (the Laboratory) as approved in the Fiscal Year (FY) 1992 Baseline. This updated schedule is to be submitted as required by the Hazardous and Solid Waste Amendments Module of the Resource Conservation and Recovery Act (RCRA) permit issued by the Environmental Protection Agency (EPA), Region VI, to the Department of Energy (DOE), and the University of California for operation of the Laboratory to the EPA. The schedule presents activities that are projected for 24 operable units that will address the solid waste management units (SWMUs) identified in the permit and in the November 1990 SWMU Report submittal to you. The RCRA Facility Investigation (RFI) Work Plan for TA-21 Operable Unit was submitted to the EPA on May 23, 1991. Additionally, eight other RFI Work Plans for Operable Units were submitted on May 22, 1992. The updated schedules are based upon the FY92 DOE-approved Baseline cost estimates that are currently being updated. The approved schedules and cost figures will be presented in the updated Installation Work Plan for the Laboratory's ER Program due November, 1992. Modification to these schedules is controlled through change control procedures.
