**Re: Extension Request for Sampling Plans TA-21 and NOD  
Response for Operable Unit 1114 Work Plan - Los Alamos  
National Laboratory (NM0890010515)**

Dear Mr. Garcia:

The Environmental Protection Agency (EPA) has reviewed Los Alamos National Laboratory's (LANL) request dated December 20, 1995, for an extension on phase II sampling plans for Solid Waste Management Units (SWMUs) 21-024 (c and i) and 21-027(a).

EPA grants LANL's request to submit these sampling plans on January 31, 1996. EPA has also reviewed and grants LANL's request dated January 11, 1996, for an extension for the Notice of Deficiency Response for the Operable Unit 1114 workplan to February 7, 1996.

Should you have any questions, please feel free to contact Ms. Barbara Driscoll at (214) 665-7441.

Sincerely,

David Neleigh, Chief  
New Mexico and Federal  
Facilities Section
