**From:** BONNIE KOCH  
**To:** Internet:driscoll.barbara@epamail.lanl.gov  
**Date:** 5/9/96 11:58am  
**Subject:** Request for Review of NOD Response for TA-21 RFI Report

To: Barbara Driscoll

From: Bonnie Koch, DOE and Garry Allen, LANL

**Telecon:**

B. Koch called Ron Kern, NMED HRMB, at 11:45 to request a review of the NOD Response for TA-21 RFI Report submitted in January of 1995. The NOD Response was submitted to EPA in April of 1995. A VCA is planned for the 21-011(k) outfall for RAD only, but the final planning cannot be completed until NMED/EPA indicate that they are satisfied that the multiple constituent analysis for metals shows NFA for RCRA constituents. Ron Kern said that, because it has been a year since the submittal and because a VCA for a RAD only site, with very high levels of constituents, is planned, he had no problem with B. Koch E-mailing B. Driscoll and asking about the NOD Response. B. Koch indicated to Ron Kern that the review of the NOD Response is also needed for other planning of remedial activities at TA-21

Hi Barbara,

As you can see from the above telecon we are hoping that we can get a review of the subject NOD Response in the near future. I will be faxing this E-mail to Ron Kern. Would you let me know if there is possibility of receiving the review soon? If there is a problem, could we ask you to take a look specifically at the item addressing 21-011(K). We very much appreciate that your time is limited and we thank you for looking into our request. If you have any questions, don't hesitate to call me at (505) - 885 - 7202.
