**RE: Response to Request for Supplemental Information on VCA Completion Report for PRSs 21-013(c, d, and e) and 31-001, referenced by EM/ER:98-239 Los Alamos National Laboratory (LANL) EPA I.D. No. NM0890010515**

Dear Mr. Garcia:

The Environmental Protection Agency (EPA) has completed a technical review of the LANL's Response to the Request for Supplemental Information (RSI) (EM/ER:98-239) on the Voluntary Corrective Action (VCA) Completion Report for Potential Release Sites (PRSs) 21-013(c, d, and e), and 31-001 dated July 17, 1998. The EPA has determined the RSI is acceptable, and has no further questions regarding the cited document.

Because some of the comments in the RSI were raised by the NMED DOE Oversight Bureau, the EPA recommends that the Bureau review this document and determine whether their concerns have been fully addressed. If you have any questions or need additional information, please contact Allen T. Chang of my staff at (214) 665-7541.

Sincerely yours,
