

ENVIRONMENTAL RESTORATION PROJECT TELEPHONE COMMUNICATION RECORD		
<b>Date:</b> 4/12/99	<b>Time:</b> 3:00 pm	<b>Recorded By:</b> P. Bertino
<b>To:</b> John Young/John Kieling	<b>From:</b> P. Bertino	<b>Telephone No.:</b> 665-2198
<b>Affiliation:</b> NMED-HRMB		
<b>Other Parties:</b> Jayne Jones and Gary McMath (LANL ER)		
<b>Discussion:</b> Pursuant to numerous conversations between John Young, John Kieling, Jayne Jones, Gary McMath, and myself, I spoke with John Young and John Kieling regarding the Fact Sheet for the RFI of PRS 21-005, the nitric acid pit. The fact sheet was faxed to NMED-HRMB on April 5, 1999 for review and comments by Mr. Kieling and Mr. Young. Mr. Kieling and Mr. Young provided verbal comments to me on April 12, 1999, which were immediately incorporated after discussion with Gary McMath and Jayne Jones. In their comments, NMED-HRMB requested that we describe how we would confirm the location of the nitric acid pit; describe the full analytical suite that was to include PCBs; and that LANL agree to sample any stained areas or fractures if encountered (i.e., bias the samples). The revised Fact Sheet was faxed again to Mr. Kieling and Mr. Young on April 12, 1999 for their approval. Mr. Young and Mr. Kieling telephoned me on April 14 and verbally approved the fact sheet and requested that we add nitrates to the analytical suite, which we did. The fact sheet was finalized on April 15, 1999.		
<b>Action Items:</b> Include fact sheet as an addendum to the final RFI Report. Where indicated above, ensure NMED-HRMB comments are adequately addressed in final the RFI Report.		
<b>Distribution:</b> J. Young, NMED-HRMB B. Wedgeworth, NMED-AIP J. Jones, MDAFA D. Daymon, MDAFA P. Bertino, RCFA/MDAFA RPF
