

**Subject: 21-011(k)Record of Communication**

**Date:** Wed, 08 May 2002 15:13:47 -0600

**From:** Vickie Maranville <[vickie\\_maranville@nmenv.state.nm.us](mailto:vickie_maranville@nmenv.state.nm.us)> (W) 5.8.02

**To:** Paula Berino <[pmb@lanl.gov](mailto:pmb@lanl.gov)>, John Hopkins <[johnhopkins@lanl.gov](mailto:johnhopkins@lanl.gov)>

**CC:** Dave McInroy <[mcinroy@lanl.gov](mailto:mcinroy@lanl.gov)>, David Cobrain <[david\\_cobrain@nmenv.state.nm.us](mailto:david_cobrain@nmenv.state.nm.us)>

I wanted to follow up on this mornings 21-011(k) Outfall meeting and document the new deadline for the revised VCM Plan submittal.

As we discussed, NMED will be sending LANL and DOE a letter stating that the VCM Plan for SWMU 21-011(k) is technically deficient. The letter should go out early next week, and I will fax a copy of it to both of you when it is final. The NMED letter will reference our meeting and outline the key elements needed in the revised VCM Plan submittal. The revised VCM Plan will be due to NMED by July 1, 2002.

Kirby and I would be happy to review the revised VCM Plan in draft form. If Lars has any questions or requires further clarification regarding risk issues, he may contact Kirby directly (428-2545). Please do not hesitate to contact me if you require additional assistance or clarification during the report revision process. My new number is 428-2546.

Thank,

Vickie (W)
