SUBJECT: SWMU 21-011(k) Waste Characterization Sampling Results

Attached are analytical data provided by Los Alamos National Laboratory (LANL) to the New Mexico Environment Department (NMED) for review. The attached data are for waste characterization samples collected on January 9, February 3 and February 6, 2003. NMED approved the waste piles characterized on January 9, 2003 for disposal on January 22, 2003. NMED conducted a preliminary review of the attached data and requested that LANL formally submit the data and a data summary to NMED. Based on the attached sampling results, NMED has determined the waste piles for which the attached results are provided can be disposed of in accordance with the approved contained in determination dated November 25, 2002.
