Dear Messrs. Gregory and Nanos:

The New Mexico Environment Department (NMED) issued an Approval with Modifications for the Response to Notice of Disapproval (NOD) and *Investigation Work Plan for Material Disposal Area B at Technical Area 21, Solid Waste Management Unit 21-015*, referenced by LA-UR-04-3713/ER2004-0243 (dated June 2004) and submitted by the U.S. Department of Energy and the Regents of the University of California (collectively, the Permittees). In accordance with the approval of the response to NOD and work plan; the Permittees must submit all revisions specified by NMED in the approval as well as those specified by the Permittees in their Response to NOD. NMED did not provide a specific date for the revisions to be submitted. To correct this omission, the submittals are due within 30 days of receipt of this letter. If the Permittees fail to submit the revisions or implement the modifications, the approval for these documents will be automatically rescinded.
