Becky Coel-Roback / Woody Woodward - LANL 665-5011

KML

Subject: MDA V Borehole Locations

## Remarks:

- New Locations: move BH-8 to North of DP Road (downgradient of site); shift BH-6 to the south; shift BH-9 to the west; Shift BH-1 to the south (Access issue)
- There is a drainage ditch that runs along the southern part of site (BH-1 is <sup>at BH-9</sup> presently located in ditch) → will probably see a lot of PAH's in surface soils (easily explained if not in subsurface) -
- Work will begin late June, early July
- NMED does not have a problem w/ proposed locations → don't need a formal letter → just explain the revised locations in the Investigation Report (can reference conference call)
- Approved revised outline for MDA V - should go out this week
- LANL must send a formal letter addressing the missed comment from the NOO response. NMED will respond accordingly. Also, **Action Required:** if LANL feels XRF is not appropriate at the site then it must be justified.

## Action Taken:

- will call when we make a site visit. Also, we will keep an eye out for the letter
