AGGREGATE AREA AT TECHNICAL AREA 21,
LOS ALAMOS NATIONAL LABORATORY,
EPA ID #NM0890010515, HWB-LANL-04-011**

Dear Messrs. Gregory and McInroy:

The New Mexico Environment Department (NMED) is in receipt of the Department of Energy's and the Regents of the University of California's (collectively, the "Permittees"), *Aggregate Areas List; Maps of TAs, SWMUs/AOCs*, dated August 2005, referenced by Project Number LA-UR-05-6234/ER2005-0226. Several SWMUs and AOCs which were included in the DP Site Aggregate Area are not included in the *Investigation Work Plan for Delta Prime Site Aggregate Area at Technical Area 21*, dated August 2004.

The Permittees must submit either a Supplemental Work Plan to the existing DP Site Aggregate Area Work Plan or an original Work Plan, which addresses the following SWMUs and AOCs; 21-002(a), 21-024(i), 21-028(d), C-21-001, C-21-006, and C-21-027. The Permittees must respond within sixty (60) days of receipt of this letter. All submittals must be in the form of two paper copies and one electronic copy in accordance with section XIA of the March 1, 2005 Consent Order (Order). NMED also requires that an electronic version of the Response be included along with the electronic version of the revised or supplemental work plan.
