Subject: Borehole Abandonment (Location 21-02523)

Ron,

In response to your email dated June 6, 2007, NMED approves your request to abandon borehole location 21-02523 (a 1994, 660-ft borehole) at MDA V. Please be advised that since you have abandoned all recent (2005-2006) investigation boreholes at MDA V without notifying NMED, you will be required to advance one or more boreholes to address vapor monitoring concerns at MDA V and potentially mesa-wide. Most likely, drilling of new vapor monitoring points will be coordinated with investigation activities at nearby MDA B.

Please contact me if you have any questions.

Katie
