Here's the answer to your question. It should be in the AR. Let me know if you need anything else. I'm surprised that they're not going to get in on time because Bruce assured me they would.

Subject: MDA A

Bruce,

In a letter from NMED dated May 29, 2007, I mistakenly required a due date for the MDA A status report as November 30, 2008. This date should be November 30, 2007. Sorry for any inconvenience.

Darlene
