Mark,

I can't seem to find an email concerning your extended suite sampling for 21-024(h). If I have responded you can ignore this email.

NMED is in receipt of the extended suite sampling for SWMU 21-024(h). NMED has reviewed this data and determined that no further analysis of PCBs, dioxins/furans, and high explosives is required at SWMU 21-024(h).

Please let me know if you have any questions.

Katie
