Katie,

I just wanted to give you a heads up that the April 30 submittal will not contain a separate vapor well monitoring plan. We're waiting for the TA 21 mesa-wide tritium evaluation which is currently unfunded because the CO is taking all our \$\$\$. Otherwise, everything should be ok.

Thanks,

Ron

Ron,

I apologize for not returning your phone call sooner. I have been out of the office sick and traveling since last Wednesday and now I've lost my voice. My communications have been reduced to email at this point. I am at home, but feel free to email any questions you may have. I will do my best to answer them.

Thanks,
Katie
