Subject: Bldg 257 and MDA T

All,

NMED has discussed the approach for Building 21-257 at MDA T and proposes the following: NMED recommends that the Permittees submit a Work Plan which includes proposed activities for the DP Aggregate Industrial Waste Lines (21-022(b)-99; 21-011(b); 21-004(b)-99), Building 21-257, and all other SWMUs/AOCs within the MDA T boundary, but outside the NES boundary (i.e., all sites other than absorption beds and disposal shafts). The absorption beds and disposal shafts will be addressed in a CME; date to be determined. There must be a section in the DP Aggregate Industrial Waste Line Work Plan that explains this.

Please let us know if you have any questions.

Thanks,

Katie
