Subject: Borehole Abandonment 21-02523

Ron,

NMED has reviewed the "Abandonment of Borehole 21-02523" Section of the Permittees' *Vadose Zone Subsurface Characterization and Vapor-Monitoring Well Installation Work Plan for Material Disposal Area V, Consolidated Unit 21-018(a)-99* (Plan). NMED hereby approves the abandonment of borehole 21-02523 so that the area can be prepared for staging activities associated with the field work at MDA B.

NMED may require the Permittees to replace this borehole to support future vapor-monitoring activities at TA-21.

NMED will send formal correspondence regarding the Plan shortly.

Please let me know if you have any questions.

Katie
