John Kieling, Acting Bureau Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

Subject: Submittal of the Replacement Location Map for the Drilling Work Plan for Test Well 3r (R-66)

Dear Mr. Kieling:

Enclosed please find the replacement location map for well R-66. Los Alamos National Laboratory (the Laboratory) staff met with Michael Dale of your staff on August 17, 2011, because the originally proposed location is sited on buried utilities. At the August 17 meeting, both Laboratory staff and Mr. Dale concluded that the proposed location meets the objectives stated in the original Drilling Work Plan for Test Well 3r (R-66) (EP2011-0008/LA-UR-11-0184).

Users of the drilling work plan should replace the original map with the attached replacement location map for Test Well 3r (R-66).

If you have any questions, please contact Ted Ball at (505) 665-3996 (tedball@lanl.gov) or Woody Woodworth at (505) 665-5820 (lance.woodworth@nnsa.doe.gov).

Sincerely,

Michael J. Graham, Associate Director
Environmental Programs
Los Alamos National Laboratory

Sincerely,

George J. Rael, Assistant Manager
Environmental Projects Office
Los Alamos Site Office
