 Los Alamos, NM 87545

RE: Temporary Permission to Discharge, New Sanitary Septic Tank/Leachfield System at Technical Area 33 (TA-33), DP-1589

Dear Mr. Beers:

The New Mexico Environment Department (NMED) has reviewed your request, dated October 28, 2010, for temporary permission to discharge domestic wastewater from four buildings at TA-33 (168, 114, 19 and 280) of the Los Alamos National Laboratory (LANL) to a new septic tank/leachfield disposal system. The proposed discharge is located in TA-33, approximately 6.8 miles northwest of Los Alamos, in Section 24, T18N, R06E, Los Alamos County.

Temporary permission to discharge is hereby granted pursuant to Subsection B of 20.6.2.3106 NMAC of the New Mexico Water Quality Control Commission Regulations. This approval is contingent on your discharging as described in your October 28, 2010 request, other correspondence with NMED Ground Water Quality Bureau staff as applicable and upon the following condition:

1. LANL shall submit the record drawings of the sanitary septic tank/leachfield system and associated collection system within 30 days of the installation of the system.

This approval does not relieve you of the responsibility to comply with any other applicable federal, state, and/or local laws and regulations, such as zoning requirements and nuisance

Robert Beers-LANL, DP-1589

ordinances. Also, this approval does not relieve you of liability should your operation result in actual pollution of surface or ground waters.

If you have any questions, please contact Gerald Knutson of the Ground Water Pollution Prevention Section at 505-827-2996.

Sincerely,

William C. Olson, Chief
Ground Water Quality Bureau
