Mr. William Olson, Chief
Ground Water Quality Bureau
New Mexico Environment Department
Harold Runnels Building, Room N2250
1190 St. Francis Drive
P.O. Box 26110
Santa Fe, NM 87502

Dear Mr. Olson:

SUBJECT: RECORD DRAWINGS, NEW SANITARY SEPTIC TANK/LEACHFIELD SYSTEM AT TECHNICAL AREA (TA)-33, DP-1589

On December 9, 2010, the New Mexico Environment Department (NMED) Ground Water Quality Bureau approved Los Alamos National Laboratory's (the Laboratory or LANL) request for temporary permission to discharge domestic wastewater from a new septic tank/leachfield system at Technical Area (TA)-33. Your agency's approval (Enclosure 1) was contingent on the following condition:

- 1. LANL shall submit the record drawings of the sanitary septic tank/leachfield system and associated collection system within 30 days of the installation of the system.*

The Laboratory completed construction of the new TA-33 septic tank/leachfield system on December 15, 2010. Accordingly, the Laboratory was required to submit record drawings to the NMED by January 15, 2011. However, due to the holidays and winter weather conditions, the Laboratory's subcontractor was delayed in completing the record drawings. The Laboratory's January 11, 2011, e-mail request for an extension of time to submit the record drawings was approved by your agency on January 12, 2011 (Enclosure 2). Enclosure 3 contains the record drawings of the new system: TA-33-0375.

Please contact me at (505) 667-7969 if you have questions regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Beers', written over a horizontal line.

Robert Beers
Water Quality & RCRA Group
