

16 December 1949

Thomas N. White Group Leader H-1

Charles D. Blackwell Monitoring Section H-1

SPECIAL T. A. -33 EXPERIMENT ON DECEMBER 16, 1949

Ref: H-1

The W-3 group performed a special experiment at T. A. 33 on December 16, 1949, under the direction of Commander James Dase. The experiment was the same as one mentioned in a memo to you from Carl Buckland dated November 14, 1949.

Scott Air-Paks and rubber gloves were worn during monitoring operations. No counts were found on the assembly and it remained intact.

After the experiment, personnel were monitored and no contamination was found.
