

9 January 1950

Thomas N. White Group Leader H-1

Charles D. Blackwell and Ralph E. Gosline Monitoring Section H-1

T. A. SPECIAL EXPERIMENT -- 9 January 1950

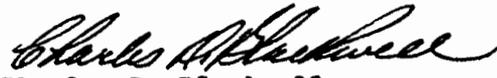

REFERENCE: H-1

W-3 group performed a special experiment at T. A. 33 on 9 January 1950 under the direction of Commander James Dare and Lt. Edward Snyder. The experiment was the same as the one mentioned in the memo to you from Carl Buckland dated 14 November 1949.

The usual monitor's clothing was worn, with the addition of Scott Air Packs during the monitoring operations. Full face Fireman's Masks were worn by the w-3 personnel.

The butt end of the assembly broke off from the main section, however, no signs of contamination were found.

After the experiment, personnel were checked for stray contamination and no counts were found.
