Robert C. Weiss & Johnnie L. Montoya Monitoring Section H-1

T-A 33 - Special Experiment, 2 February 1950

REFERENCE: H-1

W-3 group performed a special experiment at T. A. 33 on 2 February 1950, under the direction of Commander James Dare and Lt. Edward Snyder. The experiment was the same as the one mentioned to you in the memo from Carl Buckland dated 14 November 1949.

The Butt end of the assembly broke off from the main section. No signs of contamination were found.

The usual monitor's protective clothing was worn with the addition of Scott Air Packs during the monitoring operations. Full face Firemasks were worn by the W-3 personnel.

After the experiment, personnel were checked for stray contamination and no counts were found.
