SHOT AT TA-33

H-1

At 12:40 P.M. today a class two series shot at Area 8 went off without any complications. Joe Bill Webber, H-1, went along to observe. The conditions found after shot activity were as follows:

Wind about 10 miles/hour, east.

Cloud sighted 100 ft. above bunker, traveling N.W.; however, as its elevation increased, it took an easterly course away from the site.

Count at shot point was 4 on scale 4, which is within an 8-hour tolerance on our portable meter.
