November 25, 1953

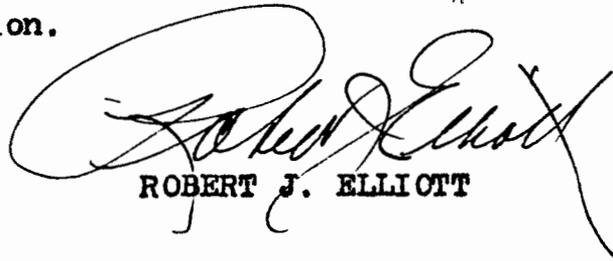

Robert J. Elliott, General Monitoring Section, H-1

SHOT AT TA-33 ON NOVEMBER 23, 1953

H-1

The experiment was carried out at approximately 3:50 P.M. on November 23, 1953. The area was checked immediately afterwards and the copper sheet that lay under the HE was found to be 10 on #4 scale. This piece of copper was hauled to the contaminated dump.

The wind was from the north about 3 m.p.h., with <sup>no</sup> cloud visible following the detonation.
