Dear Mr. Horst:

Members of Los Alamos National Laboratory's Environmental Protection Group have reviewed the Legal Public Notice pertaining to the closure of the Technical Area (TA)-35, TSL-125 surface impoundment. The Closure Plan Fact Sheet appears to be accurate with one exception. The Fact Sheet describes the location of TA-35 as west of the city of Los Alamos. In fact, TA-35 is south of the city. This inaccuracy should not affect the technical considerations being given to the closure itself, but we thought we would bring it to your attention.

Should you have any questions please call Jon Mack of my staff at 665-5026.

Sincerely,

*Steve Slater*
