TA-54 (Area I) (Approximately 30 RCRA units)=> Clean-Closure Plan.

* RCRA units will be addressed in RFI (1148); in addition either a single closure report or unit individual closure plans will be submitted.

Oversight of closure activities.

Due: When CMS is in effect.

TA-53 (LAMPF) (surface impoundments)=> Operating Permit.

* The permit was issued a NOD. LANL is currently thinking of withdrawing their application on the premise that the units do not contain hazardous materials. Sampling is planned to verify the absence of hazardous constituents. This unit is a candidate for closure.

Oversight of sampling activities.

Due: Unknown
